# A major player in the energy transition

## Building a multi-energy company to benefit all our stakeholders

### Oil

- Focusing on low-cost and low GHG emissions developments
- Developing carbon capture and storage

### Natural Gas

- Consolidating our leading positions as a top 3 low-carbon LNG company
- Minimizing methane emissions from all our operations

### Renewables & Electricity

- Investing profitably to become one of the top 5 producers of renewables
- Driving value in deregulated markets from integration along the value chain
- Being as recognized in tomorrow's e-mobility market as in today's fuel market

### Biomass:

Scaling up biofuels and biogas production and sales

### Hydrogen:

Pioneering in mass production of clean H2 and in synthetic fuels
